Mr. Steve Wigginton

A quorum was physically present.

Also physically present for the duration of the meeting were

Dr. Glenn Poshard, President; and Mr. Jerry Blakemore, General Counsel.
Dr. Paul Ferguson, Provost and Vice Chancellor for Academic Affairs, SIUE;
Dr. Sam Goldman, Chancellor, SIUC; Mr. David Gross, Executive Director of Governmental and Public Affairs; Mr. Patrick Hundley, Vice Chancellor for University Relations, SIUE; Dr. Jeff McLellan, Associate General Counsel, SIUE; Dr. Vaughn Vandegrift, Chancellor, SIUE; Dr. Paul Sarvela, Vice President for Academic Affairs; Dr. Duane Stucky, Senior Vice President for Financial and Administrative Affairs and Board Treasurer;

At 3:45 p.m., Trustee Wigginton moved that the Board go into closed session to consider pending, probable or imminent court proceedings against or on behalf of the Board, and information regarding appointment, employment, compensation, discipline, performance or dismissal of specific employees or officers of the public body. The relevant sections of the Open Meetings Act Statute that allow for the closed session are 5 ILCS 120/2(c) (1,11). The motion was duly seconded by Trustee Simmons. Student Trustee opinion regarding the motion was as follows: Aye, Mr. Nate Brown; nay, none. The motion carried by the following recorded vote: Aye, Mr. Frank William Bonan II, Dr. Ed Hightower, Dr. Keith Sanders, Mr. John Simmons, Ms. Amber Suggs, Mr. Roger Tedrick, Mr. Steve Wigginton, Ms. Marquita Wiley; nay, none.

At 4:15 p.m., the members held discussion in open session.

Vice Chancellor Hundley provided the Board with an update on SIU Edwardsville’s Capital Campaign. He discussed with members various strategies for soliciting donors and the outlook of the Campaign given the recent economic downturn.

Vice President Stucky presented to the Board proposed tuition and fee increases for SIUC and SIUE. He noted that the University was working with a large unknown factor; that is, the absence of any certainty regarding what increase, if any, the University would receive and the timing
on action of the new Governor’s proposed budget. Board members expressed major concerns about the published tuition increases and keeping college affordable for students. Chancellor Goldman reviewed known costs at the Carbondale campus for items such as negotiated salary increases and increased utility expenses and the amount of a tuition increase needed to cover the known costs. Board members discussed planned increases of other universities. A discussion followed regarding strategies for cost savings and efficiencies at each campus, and the Board directed the President to work with the Chancellors to provide it with a plan that included such cost savings strategies coupled with lower proposed tuition increases.

General Counsel Blakemore provided a PowerPoint slide presentation of a draft proposed Conflict of Interest Policy applicable to the Board of Trustees. The proposal included the establishment of strong ethical requirements for Board conduct, reporting and disclosure requirements, and recusal provisions and procedures. The Board was supportive of the effort and directed Mr. Blakemore to present the Policy to the Board for approval at its May 2009 meeting. Mr. Blakemore further advised that he would consult with outside counsel and seek their input before finalizing the recommendations to the Board.

Trustee Sanders reviewed progress of the SIUC Chancellor Search. He noted the next phase of the search would begin in late August 2009, and the Search Advisory Committee would be led by two co-chairs:
Dr. Peggy Stockdale, President of the Faculty Senate, SIUC; and Mr. Thomas Britton, Chair of the Graduate Council, SIUC.

Trustee Wigginton departed the meeting.

At 6:35 p.m., Trustee Suggs moved that the Board go into closed session to consider pending, probable or imminent court proceedings against or on behalf of the Board, and information regarding appointment, employment, compensation, discipline, performance or dismissal of specific employees or officers of the public body. The relevant sections of the Open Meetings Act Statute that allow for the closed session are 5 ILCS 120/2(c) (1,11). The motion was duly seconded by Trustee Bonan. Student Trustee opinion regarding the motion was as follows: Aye, Mr. Nate Brown; nay, none. The motion carried by the following recorded vote: Aye, Mr. Frank William Bonan II, Dr. Ed Hightower, Dr. Keith Sanders, Mr. John Simmons, Ms. Amber Suggs, Mr. Roger Tedrick, Ms. Marquita Wiley; nay, none.

The meeting adjourned at 7:20 p.m. No action was requested or taken.

NOTE: Copies of all background documents furnished to the Board in connection with the following matters have been placed on file in the Office of the Board of Trustees.
The Chair welcomed newly elected Student Trustee Nate Brown to the Board table and appointed him to serve as a member of the Board’s Academic Matters Committee.

The Chair reported that, pursuant to notice, at approximately 3:30 p.m., April 1, 2009, in the Board Room of Birger Hall, members of the Board of Trustees held an executive session. Before the closing of the meeting, updates were provided on the SIUE Capital Campaign and SIUC Chancellor search, and SIUC and SIUE tuition increases and a proposed Board of Trustees Conflict of Interest Policy were reviewed. No action was requested or taken. Motions were duly made and seconded to close the meeting for the purpose of considering pending, probable or imminent court proceedings against or on behalf of the Board and information regarding appointment, employment, compensation, discipline, performance or dismissal of specific employees or officers of the public body. No action was requested or taken.

The Chair reported that, after the executive session, members of the Board of Trustees attended dinner in the International Room of the Morris University Center at the Edwardsville campus. The gathering was social in nature.

Under Trustee Reports, Mr. Tedrick reported that he, along with fellow Trustees Bonan and Suggs, attended the March 3 Groundbreaking for Saluki Way on the Carbondale Campus. He noted that it was an exciting event to be able to attend since he had been a lifelong fan.
Mr. Bonan provided a report of the Joint Trustee Committee for Springfield Medical Education Programs Meeting on March 3 at the SIU School of Medicine in Springfield. He reported that he participated in the meeting with School of Medicine Dean Kevin Dorsey and the heads of some of the major Springfield area hospitals which have partnerships with the School of Medicine. Mr. Bonan noted that he was impressed with Dr. Dorsey’s leadership in the meeting and around the facility, and with the partnerships established by Dr. Dorsey at the school. He found the meeting to be informative and positive in nature.

Mr. Simmons provided a report of the February 18 State Universities Civil Service System Merit Board meeting in Urbana, Illinois. He reported that the Merit Board was proposing significant changes in the way the public universities in the state handle professional assistance. Mr. Simmons went on to say that there was a feeling that professional assistance was growing too broadly and some of the rules were being circumvented. The University of Illinois requested additional time to study the financial impact of the proposed rules, and action on the matter was tabled. Mr. Simmons anticipated that the matter would be presented to the Merit Board for action at its May meeting, and he would provide an update to the Board of Trustees later in the summer.

Ms. Suggs reported that on March 30 she represented the Board at SIU Edwardsville’s unveiling of President Obama’s first piece of legislation that he announced on the campus when he was a senator.
Under Committee Reports, Mr. Tedrick, Chair of the Executive Committee, reported that the Committee had not met since the last Board meeting.

Under Executive Officer Reports, President Poshard made his report to the Board. The President provided a brief outline of Governor Quinn’s budget plan and specifically the higher education provisions of that plan which he proposed to the state legislature on March 19. He reported that the Governor’s two-year financial rescue plan envisioned a combination of revenue increases, short-term borrowing, an infusion of billions of dollars in federal stabilization funds and a series of state budget reductions that at the end of FY10 would eliminate the operating deficit. Key provisions of the plan included increasing the state income tax rate for individuals and corporations that would net out $2.9 billion in revenue, after increasing the personal exemption to $6,000. Other revenue increases totaling $1.5 billion included fund sweeps, chargebacks, an increase in cigarette tax, closing of certain tax advantages for corporations and increases in vehicle fees. More than $4.0 billion would be used in stimulus stabilization funds to avoid deep cuts in education and health care expenditures. The Governor’s plan also called for more than $1.3 billion in state budget cuts and additional pension and health care contributions by state and university employees.

The President reported that on April 1 the Commission on Government Forecasting and Accountability provided revenue estimates to the state legislature that indicated that both FY09 and FY10 revenue
growth would be negative, even with more than $4.0 billion in federal stabilization revenues included in their estimate. The projected decline in base state revenues total $2.8 billion, more than double the two-year period of the last recession.

Dr. Poshard went on to say that the Governor’s budget increases the state’s investment in its public higher education system by $40 million in fiscal year 2010. University funding was increased by $16 million from fiscal year 2009. Each Illinois University and community college would receive a budget boost, and there is also an additional $21 million for Monetary Award Program (MAP) grants, which means another 5,000 students would become eligible for the need-based aid. The Governor was also calling for a $26.0 billion capital plan, including $663 million for public university projects, which included the SIUE Science Building and the SIUC TEC Center. The President reviewed the trend of decreasing state funding for higher education over recent years and the tough economic times the state and nation faced. He stated that sacrifice was to be made from all in higher education and that SIU’s system would be scrutinized to make sure that all possible efficiencies were being utilized.

Dr. Sam Goldman, Chancellor, SIU Carbondale, made his report to the Board. He stated that SIUC’s venture in nursing with SIUE was moving along very nicely, and he expressed his gratitude for the cooperation of SIUE. The Chancellor reported that the Office of Research Development and Administration recently received notice from the National
Science Foundation’s Integrative Graduate Education and Research Traineeship Program of a nearly $3.2 million grant award for multidisciplinary team-based training in watershed science and policy. He further reported that for the second consecutive year, radio television students produced the best collegiate television magazine show in the nation and won a national student Emmy at the Academy of Television Arts and Sciences’ 30th Annual College Television Awards. In addition, the debate team won second place at the National Parliamentary Tournament of Excellence which is the most prestigious national finals invitational tournament for the Debate Program.

The Chancellor noted that on March 3 the official groundbreaking for Saluki Way was held, and the project was moving along positively and on schedule. He recognized accomplishments of student athletes, Bryan Mullins from the men’s basketball team and Amy Phegley of the women’s track and field team. Both were among 25 students being honored during the upcoming weekend by the SIU Alumni Association as most distinguished seniors. Both athletes maintain 4.0 grade point averages and will graduate in May after four-year programs.

Dr. Vaughn Vandegrift, Chancellor, SIU Edwardsville, made his report to the Board. The Chancellor reported that the SIUE Black Alumni Association recently held its first reunion weekend. The group, an offshoot of the SIUE Alumni Association, holds as its mission the goals of maintaining a professional and social network for the African-American Alumni of SIUE. On March 20, the SIUE Student Government hosted area
legislators to show the University's appreciation for the legislators' support of SIUE, and it was attended by Senators Haine and McCarter and Representative Beiser. On March 25, the SIUE student government sent 20 students to Springfield on Lobby Day to meet with state senators and representatives. Students discussed support of the higher education agenda of the Governor, needed funds for the Science Building and for the operations of the University.

The Chancellor reported that the Reclassification Work Group for NCAA Division I had conducted three successful open forums for the University community, SIUE Foundation, and general public. He thanked Edwardsville School District Superintendent and Trustee Ed Hightower for letting SIUE use the Edwardsville high school facility for the general public hearing. The Chancellor went on to say that the forums were offered to describe the progress the University was making in its transition to Division I and to entertain questions from attendees. The Work Group was in the process of revising the Division I Annual Strategic Plan that was due to the NCAA by June 1, 2009.

The Chair explained the procedures for the public comment and question portion of the Board's agenda.

The Secretary called on Ms. Katie Thomas.

Ms. Thomas made her presentation to the Board. She noted that she was a member of the debate team which had recently returned from the national tournament and that she and her partner received sixth place which meant that Southern Illinois University Carbondale as a school
was the leading representative for the entire nation because it had two teams in the top ten. She further noted that she was awarded with the National Parliamentary Debate Association All-American Award.

Ms. Thomas reported that her request of the Board had been brought forward by Megan Pulliam and Jon Dyer for the green fee. She stated that she wished to reiterate that the fee would benefit the campus community and would increase education among the students who would benefit from the fee’s passage. Ms. Thomas pointed out that the group supporting the fee anticipated increased retention and increased admissions by being able to tout SIUC as one of the only national universities that would have a green fee. In addition, it would demonstrate to the Carbondale community and the state of Illinois that such projects could be undertaken and were possible. She recalled that President Poshard had spoke earlier of the University operating at the highest efficiency levels, and she noted that the green fee could assist in that by way of tangible outcomes through energy efficiency projects. She asked the Board to continue to support environmental issues at SIUC and SIUE and that the University should pride itself in being and environmental leader in the community.

The Chair noted that Trustee Sanders was an alumnus from the same Debate Program.

Trustee Sanders complimented Ms. Thomas on her presentation and stated that he was very pleased that the SIUC Debate Program had been nationally known and respected since the mid 1950s.
The Chair explained the procedure for the Board’s omnibus motion and he proposed that, after discussion, there would be taken up the following matters:

**REPORTS OF PURCHASE ORDERS AND CONTRACTS, JANUARY AND FEBRUARY 2009, SIUC AND SIUE**

In accordance with 3 Bylaws 1 and 5 Policies of the Board C, summary reports of purchase orders and contracts awarded during the months of January and February 2009 were mailed to the members of the Board in advance of this meeting, copies were placed on file in the Office of the Board of Trustees, and these reports are hereby submitted for information and entry upon the minutes of the Board with respect to the actions of the Executive Committee.

**CHANGES IN FACULTY-ADMINISTRATIVE PAYROLL – SIUC**

The following changes in faculty-administrative payroll are submitted to the Board of Trustees for ratification in accordance with the Board Policy on Personnel Approval (2 Policies of the Board B). Additional detailed information is on file in the Office of the Chancellor. Where appropriate, salary is reported on a monthly basis and on either an academic year (AY) or fiscal year (FY) basis.

A. **Continuing Appointment** (If the person previously had a University appointment, it is so noted. Otherwise, the person is a new University employee.)

APPROVAL OF PURCHASE:
COAL, COAL HAULING, ASH DISPOSAL AND ASH HAULING
CARBONDALE CAMPUS, SIUC

Summary

This matter would grant approval to issue a Request for Quotation (RFQ) and enter into a contract for the purchase of coal, coal hauling, ash disposal, and ash hauling services for the SIUC Power Plant facility on the Carbondale campus. The contract for these services will be negotiated for up to a five-year period.

It is anticipated that the University will purchase approximately $11,100,000 worth of coal, coal hauling, ash disposal, and ash hauling services during the contract period. Funds for this RFQ are available from the Utilities Purchased Services account.

Rationale for Adoption

To meet the future coal needs of the SIUC Power Plant, a Request for Quotation to solicit bids to provide coal, coal hauling, ash disposal, and ash hauling will be issued. This RFQ will be posted on the Illinois Public Higher Education Procurement Bulletin.

The University wishes to establish a professional relationship with the selected vendor to provide quality coal and coal hauling services for use at the SIUC Power Plant. A five-year contract will provide the University with the opportunity to establish a consistent price for a daily-use commodity. This matter is recommended for adoption by the Executive Director of Administration and the Chancellor, SIUC.

Considerations Against Adoption

University officers are aware of none.

Constituency Involvement

Not applicable.

Resolution

BE IT RESOLVED, By the Board of Trustees of Southern Illinois University in regular meeting assembled, That:
(1) The issuance of a Request for Quotation and the award of a maximum five-year contract for the purchase of coal, coal hauling, ash disposal, and ash hauling services for the SIUC Power Plant facility on the Carbondale campus, Carbondale, Illinois, be and is hereby approved at a total estimated cost of $11,100,000.

(2) Funding for this work will come from the Utilities Purchased Services account.

(3) The President of Southern Illinois University be and is hereby authorized to take whatever action may be required in the execution of this resolution in accordance with established policies and procedures.

FY 2010 OPERATING AND CAPITAL BUDGETS PLANNING GUIDELINES

Summary

This matter submits for approval guidelines to be used for the development of the University's Fiscal Year 2010 operating and capital budgets.

Rationale for Adoption

The FY 2010 guidelines continue the University's commitment to preserve and protect its long-term assets. Resources should be allocated in the most efficient manner that leads to fulfilling the institution's mission, highest priorities, and maintaining quality faculty and staff.

Considerations Against Adoption

None are known to exist.

Constituency Involvement

The guidelines have been discussed with University leadership, constituency groups, and other members of the University community.

Resolution

BE IT RESOLVED, By the Board of Trustees of Southern Illinois University in regular meeting assembled, That the FY 2010 operating and capital budgets planning guidelines be approved as follows:
1. **Highest Priorities.** In constructing the FY 2010 operating and capital budgets, the highest priority shall be placed on maintaining the continuing operations and staffing of the institution. Campus leadership shall develop budget proposals for those items it wishes to fund that protect the overall quality of the institution. Items may include, but not be limited to: salary increases, hiring additional faculty and staff, needs/merit financial aid, library materials, deferred maintenance, utilities, supplies, technology upgrades and other continuing operating costs.

2. **Contingency Plan.** If possible, emergencies or unanticipated expenditures should not cause major changes in resource allocation during the fiscal year. A contingency reserve insulates the institution from negative shifts in resources. Therefore, at least two percent of FY 2010 appropriated and income funds will be reserved for contingencies. Each campus will develop a plan to expend these funds during the last two quarters of the fiscal year if they are not required for unanticipated expenditures.

3. **Maintenance of Assets.** The assets critical to the success of the University include human and physical assets such as buildings and equipment. If not maintained, assets deteriorate. The following serve as targets for addressing facilities renewal and renovation and for equipment replacement:
   
   • an amount equaling two percent of the replacement value of the plant on facilities renewal and renovation;
   
   Projects proposed for the campuses will be developed recognizing the need to upgrade existing buildings, replace obsolete structures, repair structural and utility support systems, and make campus site improvements.
   
   • an amount equaling ten percent of the book value of equipment on equipment upgrades.
   
   The amounts given above represent long-term average targets. Annual budgets may exceed or fall short of the targets.

4. **Remaining Budget.** After funding the highest priorities, the contingency fund, and the maintenance of assets, Campus leadership shall devote remaining funds to the University’s commitment to its long-term goals. Campus budget plans shall describe the allocations targeted for its long-term goals.
Mr. Simmons moved the reception of Reports of Purchase Orders and Contracts, January and February 2009, SIUC and SIUE; the ratification of Changes in Faculty-Administrative Payroll for SIUC and SIUE; the approval of the Minutes of the Meetings held February 11 and 12, 2009; Approval of Purchase: Coal, Coal Hauling, Ash Disposal and Ash Hauling, Carbondale Campus, SIUC; and FY 2010 Operating and Capital Budgets Planning Guidelines. The motion was duly seconded by Trustee Wiley. Student Trustee opinion regarding the motion was as follows: Aye, Mr. Nate Brown; nay, none. The motion carried by the following recorded vote: Aye, Mr. Frank William Bonan II, Dr. Ed Hightower, Dr. Keith Sanders, Mr. John Simmons, Ms. Amber Suggs, Mr. Roger Tedrick, Mr. Steve Wigginton, Ms. Marquita Wiley; nay, none.

The Chair proposed that the following matters be presented to the Board, after discussion, on a second omnibus motion:

**AWARD OF CONTRACTS:**
**FOOTBALL STADIUM CONSTRUCTION,**
**SIU ARENA RENOVATION AND THE ATHLETIC BUILDING ADDITION,**
**CARBONDALE CAMPUS, SIUC**

**Summary**

This matter awards sixteen (16) contracts for the construction of the Football Stadium and the SIU Arena renovation and Athletic Building addition.

At the September 11, 2008, Board of Trustees meeting, project and budget approval was received for $83,000,000. Approval was also received to solicit bids for a segment of this project. The total of this segment is not to exceed $70,000,000. The project will require additional Board of Trustees approval for the remaining estimated $13,000,000 project budget at a later date. At the December 11, 2008, meeting, the Board of Trustees awarded three contracts for the site work for a total of
$2,518,732. At the February 12, 2009, meeting, the Board issued twenty-two (22) contracts totaling $28,319,642.

The recommended bids for sixteen (16) contracts for the construction of the Football Stadium and the SIU Arena renovation and Athletic Building total $10,306,587. The project budget will be funded from external and/or internal financing as determined by the Board Treasurer. The debt payment will be repaid with SIUC Student Intercollegiate Athletic fees, private donations, funds received from the City of Carbondale, and revenues generated by Saluki Athletics.

**Rationale for Adoption**

McAndrew Stadium, originally constructed circa 1939, is in desperate need of replacement. Replacement of the east side bleachers and renovations to the concessions and restroom areas occurred in 1975, the track was replaced in 2001 and the turf was replaced in 2002.

The new U shaped stadium will consist of tiered seating on the east, west and south sides with a corresponding lower concourse level. The main entry will be located on the southwest corner with the scoreboard on the north end. Ample concessions, restrooms and storage areas will be dispersed throughout the concourse. The west side, above the seating areas, will house media, coaches’ suites, a club area and viewing suites.

The construction of the Football Stadium will be in accordance with the Campus Design Guidelines and the 2006 Campus Master Plan. This project also includes the relocation of the University Tennis Courts and the Recreational Sports Lighted Playfields.

The SIU Arena was opened in 1964. The last renovations were completed in 1996 with the replacement of the court. The current renovation project includes new seating throughout the lower and upper areas, improved accessibility and entrances to meet the Americans with Disabilities Act requirements, middle handrails at all aisles, increased concessions, restrooms and fan amenities on the upper level, a new scoreboard as well as aesthetic improvements. In addition to the interior upgrades, a new addition will be constructed on the northeast side of the Arena. The new area will include a main entrance and a two-level addition that contains expanded team facilities, an auditorium, mechanical areas, and office space.

The location of the Arena is widely recognized throughout the region and acts as a cornerstone of the campus. The renovation and expansion of the SIU Arena will be in accordance with the Campus Design Guidelines and the 2006 Campus Master Plan.
The SIU Board of Trustees, at the March 9, 2006, meeting, approved the integration of the Saluki Way plan into the 2001 Land Use Plan and the renaming of this revised plan to the 2006 Campus Master Plan for the Carbondale campus. The SIU Board of Trustees, at its September 14, 2006, meeting, approved the development of schematic plans and cost estimates for the design and construction of the Football Stadium and renovation and expansion of the SIU Arena. At the November 8, 2007, meeting of the Board of Trustees, authorization was given for the detailed planning of this project.

Southern at 150: Building Excellence Through Commitment states that “Athletics can enhance the University image and is an essential component of campus life, providing a sense of school pride, spirit and traditions.” Recent successes in Saluki Athletics have demonstrated this. REVISED PROJECT BUDGET AND SCOPE AND AWARD OF CONTRACT: FANER HALL ROOF REPLACEMENT, WINGS A, B, AND C, CARBONDALE CAMPUS, SIUC

Summary

This matter seeks a revised project budget and scope and the award of contract for the roof replacement on Faner Hall, wings A, B, and C.

Recent bidding experience has indicated an existing aggressive bid market and a project of this magnitude as well as the dire need of the replacement of the roof system at Faner Hall advocate the acceptance of the revised project budget and scope and the award of contract at this time.

The project budget will be funded from the Facilities Maintenance Fee (FMF) established by the Board of Trustees at the April 12, 2007, meeting.

Rationale for Adoption

Faner Hall, built in 1974, is divided into three major sections and has 27 roof areas at varying heights. The majority of the roof system is approximately eighteen years old and consists of multiple ballasted single-ply systems. White and Borgogoni Architects was selected using the Qualifications Based Selection (QBS) process and have prepared the plans and specifications and will oversee construction phase.

Originally, the base bid was estimated at approximately 65,540 square feet consisting of 13 roof areas in need of replacement. After further evaluation it has been recommended that an additional 14 areas, 24,335 square feet of surface area, be replaced. The enlarged scope was
identified during the design phase. White and Borgognoni Architects recommend that exposed and deteriorated vertical and horizontal concrete, including numerous pipe chases, be covered with a roof membrane thereby providing a watertight installation. Also recommended is the acceptance of the alternate bids for providing a top insulation board to support a more durable roof system.

The original project budget was approved for $1,000,000 at the April 10, 2008, Board of Trustees meeting. The original budget was dictated by the anticipated funds available and the prioritization of campus roof needs. At that time, Plant and Service Operations projected the Faner Roof project to be completed in a phased approach utilizing multiple years of funding through the Facilities Maintenance Fee. Due to the current bidding environment and the over-all condition of Faner Hall, Plant and Service Operations recommends the escalation of the schedule. Funds set aside for the Faner roof project from the FY 2009 and FY 2010 FMF will be combined to complete this project. Projects that address the climate control and interior upgrades are planned after the completion of the roof replacement.

A revised project budget of $2,500,000, which includes fees and a construction contingency, is requested at this time. The revised budget is caused by the elevated difficulty of the project relating to the physical characteristics of the facility and labor intensive work required to remove and replace the 27 roof areas. The factors contributing to the revised project budget request include removal of existing rock ballast with specialized vacuum equipment, removal of wet insulation and multiple roof systems creating a large volume of waste, crane, hoists, and ramping requirements due to multiple levels, staging of new materials, replacement of perimeter flashings, removal, re-installation and potential replacement of 280 access panels including membrane and metal flashing systems and installation of 20 new roof drains which require cuts into existing six-inch-thick reinforced concrete to improve the drainage layout.

Considerations Against Adoption

University officials are aware of none.

Constituency Involvement

This project is part of the Facilities Maintenance Plan which has been discussed with the Dean's Council, the Undergraduate Student Government, and the Graduate and Professional Student Council.
Resolution

BE IT RESOLVED, By the Board of Trustees of Southern Illinois University in regular meeting assembled, That:

(2) The contract for the replacement of the roof on Faner Hall wings A, B, and C, Carbondale, Illinois, be and is hereby awarded to Jim Taylor Roofing, Inc., Belleville, IL, in the amount of $2,143,789.

AWARD OF CONTRACT:
AGRICULTURE BUILDING ROOF REPLACEMENT, ROOF AREAS C AND D, CARBONDALE CAMPUS, SIUC

Summary

A favorable bid has been received and the award of contract is requested. The project budget will be funded from the Facilities Maintenance Fee established by the Board of Trustees at the April 12, 2007, meeting.

Rationale for Adoption

The Agriculture Building, built in 1957, is divided into four roof areas (A, B, C, and D). This project will replace roof areas C and D. Both areas are approximately twenty-four years old and the condition is detrimental to the infrastructure and contents of the building.
Roof area C, approximately 30,500 sq. ft., consists of a single-ply membrane system. Roof area D is over the auditorium and is approximately 5,400 sq. ft. Roof D is a ballasted single-ply membrane system.

This project received project and budget approval from the Board of Trustees at the April 10, 2008, meeting. Ittner Architects was selected using the Qualifications Based Selection (QBS) process and have prepared the plans and specifications and will oversee construction phase.
