Quarterly Investment Report
September 30, 2014

Performance Analysis

For the quarter ending September 30, 2014, Treasury yields increased in the 2 to 5 year maturity range and declined in the longer maturities. The yields on the 2-year and 5-year Treasury rose 13 and 15 basis points, respectively, while the 30-year yield dropped 14 bp. Treasury yields are higher than where they stood a year ago throughout SIU's intermediate investment range (1 to 7 years) and much lower than a year ago in 30 years. The Treasury market as a whole has performed admirably this year, particularly in the longer maturities, as inflation has been minimal and the tapering of open market purchases by the Fed did not generate its expected backlash of increased long-term rates.

The general increase in interest rates in short to medium maturities generated modest capital losses on SIU's longer dated assets leading to a negative overall return for the quarter. SIU's combined portfolio loss of -0.04% for the 3rd quarter contrasts with positive returns of 0.25% & 0.33% in the first two quarters. The Intermediate Fund managed by both Western Asset Management Company ("WAMCo") and Public Financial Management ("PFM") posted a 3rd quarter loss of -0.12%, consisting of 0.21% in current income return (after fees), less a capital loss of -0.33%. This -0.12% return underperformed the quarterly benchmark return of +0.02% on the Barclay's Intermediate U.S. Government Securities Index for the same period. The short-term return on SIU's liquid funds remained low at 0.012% for the quarter due to continued rock bottom yields in the money markets.

SIU's combined portfolio loss of -0.04% for the quarter ending 9/30/2014 underperformed the weighted benchmark return of +0.01%.

INTRODUCTION

SIU FY14 FINANCIAL PERFORMANCE REPORT

This report provides information on the financial performance of SIU's major operating fund groups for FY2014. Schedule A shows how the budget was adjusted during the year, as presented in periodic reports to the Board. It also compares revenue and expenditure estimates with actual year-end totals. Schedule B provides a University-wide summary of financial performance for each fund group. Schedule C compares FY14 results with the prior year and with budget for each fund group.

It should be noted that this report is presented on a cash basis except for the revenue bond fund group, which is on a modified accrual basis, and would, therefore, differ from the University's annual audited financial statements which are presented on an accrual basis. Also, this report deals only with operating fund groups; cash balances in this report would differ from the University's annual financial statement, which includes all funds.

Distribution of Operating Expenditures

Note:

- (1) Appropriations - Direct payments by the State of Illinois for staff benefits on behalf of the University total about \$281 million.
- (2) Grants and Contracts - Revenues received from external sources match expenditures over the life of the grant, therefore the cash balance is reflected as zero.
- (3) Service Departments act as "flow through" accounts for services provided to University departments. In order to avoid double-counting of financial transactions, revenue and expenditures are not added to the University totals.
- (4) Includes approximately \$40.4 million that was uncollected in state appropriations as of 7/31/14.

Cash basis accounting except for Revenue Bond Operations, which are on modified accrual basis.

- (1) Decrease due to change in the funding source used for the purchase of computer equipment and receipt in FY14 of the final reimbursement for the renovation of Morris Library.
- (2) Increase due to increase in occupancy and room rates in student housing and increase in rates and sales of meal plans.
- (3) Increase due to fee increases, a change in policy related to University Service Expense charges in which the expense is paid centrally and an agreement between the University and various state education associations for salary support.
- (4) Increase due to salary expenses due to the hiring of extra help personnel to staff short-term projects related to facility and infrastructure improvements and due to equipment expenditures related to classroom renovations and desktop replacements.

Net Result	(505,100)	(248,000)	257,100	

- (1) Increase due to cost of salary increases on general operating funds.
- (2) Decrease due to reduction in Federal and Private grant funding and the retirement/separation of faculty members.
- (3) Increase due to additional Medicaid Inter-Governmental Transfer (IGT) funding received and additional Dean's tax.
- (4) Decreased plant contributions due to anticipated FY15 operational cash flow needs.
- (5) Increase due to hospital affiliation and other healthcare provider contracts.
- (6) Increase due to new programs and initiatives funded by partner hospitals and other health care agencies.
- (7) Increase due to additional group health insurance which inflates both revenues and expenditures.

Cash basis accounting except for Revenue Bond Operations, which are on modified accrual basis.

- (1) Decrease due to FY13 having 5 quarterly ICR distributions (the last distribution for FY12 was late), and FY14 has the regular 4 distributions.
- (2) Decrease due to timing of projects supported by the Facilities Fee—largely due to the completion of Art & Design renovation last year.
- (3) Increase due to the addition of new buildings (Science, Engineering, and Art & Design expansions) and the associated equipment/supplies/O&M costs.

Cash basis accounting except for Revenue Bond Operations, which are on modified accrual basis.

APPENDIX

DESCRIPTION OF MAJOR FUND GROUPS

Appropriated Fund

State appropriated funds include General Revenue Funds and Other State Funds, both of which come from Illinois tax dollars.

Income Fund

Income Fund revenue includes tuition revenue, off-campus program revenue, interest earnings on income fund deposits, and certain miscellaneous fee revenue. Tuition revenue is a direct result of student enrollment, student residency, credit hours, and tuition rates. Off-campus program revenue is based on charges sufficient to cover all instructional and administrative costs of the programs. LAC guidelines require that certain fee revenue such as application fees, course-specific fees and graduation fees be deposited into the income fund.

Grants and Contracts

Grants and contracts include funds received from governmental entities and private foundations and corporations for the support of various research projects, instructional and training programs, public service activities, student financial aid, and other programs. The specific use of these funds is restricted by contractual agreement with the sponsoring agency. Generally, revenues will equal expenditures over the life of the grant or contract.

Indirect Cost Fund

Indirect cost funds are recovered as overhead allowances on grants and contracts. They are used to help cover a share of expenses for such items as operation and maintenance, library services, sponsored project administration and general administration.

Revenue Bond

Operations of revenue bond financed facilities are reported in this fund group. Revenue Bond enterprises are funded primarily from student fees, operating charges, and sales and services of various activities and include such facilities as residence halls, student centers, and student recreation centers.

Self-Supporting Activities

Self-Supporting Activities include a wide range of operations, which are directly related to Instructional, Research, or Public Service units or support the overall objectives of the University. They may be Self-Supporting in whole or in part. Revenue is generally derived through student fees or sales of services. Examples include Shryock Auditorium, textbook services and athletic fees.

Service Departments

Service Departments provide specific types of services to University departments and are supported by internal charges to using departments. Such services might be purchased from outside sources but for reasons of convenience, cost or control are often provided more effectively by an in-house service department.
